

The Gaza Mono-Logues were written by 33 young Gazans in the aftermath of a 22-day attack on the Gaza Strip in December 2008 – January 2009. In October 2010, 60 cities around the world witnessed performances of *The Gaza Mono-Logues* performed by their youth. This November, young actors from around the world are meeting in New York City to perform *The Gaza Mono-Logues* on behalf of the authors, who are unable to attend because of the blockade still imposed on them.
